## ABOUT US

Founded in 2005, **QIS** has attracted the best talent in the industry through its employee-friendly culture. The company has provided technology products and consulting services to well known clients many of whom are government and public sector companies. The company has offices in East Brunswick, New Jersey and Baroda, India.

A mix of offshore and onsite services is used for each client engagement. Through this engagement model, we assist our clients in achieving cost effective and time bound completion of the assignment. Development, Deployment and Integration activities are managed effectively by distributing activities across multiple delivery options.

**QIS** provides superior consulting and IT services to clients globally - combining knowledgeable resources and flexible technologies to offer high quality, low-cost products and services. We maximize the value of new technology to exploit business opportunities by integrating solid business experience with creative new applications. We bring innovative ideas and cutting-edge technologies into the business of customers. We plan and execute projects that improve clients' business performance.

The proof of our capabilities is demonstrated through the successes of our clients and the strength of our relationships.
